Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 20 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Kessler (U.S. 4,274,236).

Kessler shows a foamed panel with reinforcing ribs formed from foam of a lesser density than the foam of the panel (Figures 2 and 3, abstract). The instant preamble language of a "thermoformed sound deadening panel" is taken as being met by Kessler as it is unclear what additional structure if any is implied by the preamble language that is not in the body of the claim. Regarding claim 21, Kessler, in Figure 3 shows a flat surface on the panel underside below the raised portion.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1772

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claims 22-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Marchisio et al. (EP 0 810 145 A1) in view of Kessler.

Marchisio et al. teach foam and plastic layers with an attached fabric cladding that are thermoformed into a wheel arch panel (abstract, Figure 2). Kessler teaches a foam panel that has ribs formed during foaming of a lower density than the body of the panel in order to reinforce the panel while being economical in the use of material (col. 2, lines 45-60). The instant invention claims a foam layer with projections of a lower density than the foam body joined to a fiber layer and formed into a wheel arch. Marchisio et al. fails to teach ribs of a lower foam density. It would have been obvious, however, to one of ordinary skill in the art to have formed ribs of a lower density foam, on the foam layer of Marchisio et al. in order to reinforce the wheel arch at an economical price because of the teachings of Kessler.

5. Applicant's arguments with respect to claims 20-26 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
